

## Client Support Policy

We provide ongoing website support and maintenance to clients with a valid support plan. Clients are automatically subscribed to the basic plan upon the completion of a website project.

### Support plans covers:

1. Website Support & Maintenance
2. Disaster Protection\*
3. Server Monitoring\*
4. Website Concierge

Support plans have different tiers that vary in features and services provided depending on which plan the client adopted.

### Support Channels

1. Ticket: <https://accounts.pixelhost.sg/submitticket.php>
2. Email: [support@pixelhost.sg](mailto:support@pixelhost.sg)
3. Call: +65 6972 8817

### Website Support

- Identifying and resolving **current system's** operational issues, servicing of errors and bugs encountered via support channels.
- Troubleshooting via remote access.

### Website Maintenance

#### Technical Maintenance

- Pixel Mechanics site sentry monitors your website uptime, informing you when we detect any downtime
- Pixel Mechanics performs coding and browser compatibility maintenance annually, the service ensures website is in compliance with major modern browser update (Edge, chrome, firefox, safari, etc.)
- Pixel Mechanics checks for your website SSL status and mobile responsiveness every quarter.

#### CMS Maintenance

The nature of website software and technology including content management systems and frameworks is constantly changing and monitoring all these aspects is a necessity for the success of your website.

- Pixel Mechanics performs system core, theme, and plugins updates quarterly, the service ensures that your website backend is functional and patched against the latest security vulnerabilities.

#### Security Maintenance

On top of the server level solution, a comprehensive security module is deployed within every CMS to further strengthen the security of your website on the application level. Security maintenance ensures that the module is functioning per intended to guard your website against hacks and malware

- Updating of security scanner and end point firewall
- Initiating security scans and applying recommended fixes\*

### Disaster Protection

Applicable **only** for clients hosted with Pixel Mechanics or Pixel Host.

Our platform is built on the premium Google cloud infrastructure for top reliability, security and speed.

- Server level firewall that protects sites from known hacks and breaches
- AI anti-bot and phishing deterrence stops brute-force attempts and prevents unauthorized access
- Automated cloud backups on the latest 7-14 basis, depending on which hosting package the client adopts.
- On demand backups can be generated when required

### Server Monitoring

Applicable **only** for clients hosted with Pixel Mechanics or Pixel Host.

Server-monitoring system by our DevOps team checks server status consistently to detect issues and applying fixes. It is also programmed to foresee and prevent a multitude of problems.

We constantly update server software such as the newest PHP versions or the most innovative protocols and compression algorithms like Brotli, HTTP/2, TLS 1.3, OCSP Stapling and QUIC.

### Website Concierge

Applicable only for websites created by Pixel Mechanics.

Using our CMS to update contents in your website is simple, however you might not have the time it. The concierge service enables you to tap on our support team for tasks relating to your website.

Concierge service works on a credit-based system basis. Refer to our concierge menu below for more information.

### Service Level Agreement

Severity	Examples of issues	Response Time
★★★★★	<ul style="list-style-type: none"> <li>• Website not accessible</li> <li>• Web pages not available</li> </ul>	Within <u>8 hours</u>
★★★	<ul style="list-style-type: none"> <li>• Unable to publish contents</li> <li>• Broken images link</li> </ul>	Within <u>1 business day</u> (Business hours only)
★	<ul style="list-style-type: none"> <li>• Unable to edit admin profile</li> <li>• Forget password / other access related issues</li> </ul>	Within <u>1 business day</u> (Business hours only)

\***Response time** for Pixel Mechanics to acknowledge issue / disruption and taking appropriate measure and service recovery actions. Lead time for issue resolution will take up to 72 hours depending on the complexity of the issue
